NCR Advanced Store@NeighborhoodPOS

- Maximize flexibility and performance with Advanced Store@NeighborhoodPOS, an open system bringing NCR retail expertise to you and your customers throughout your business neighborhood.
- NCR combined the latest in open architecture design – the new NCR 7448 Point of Service (POS) Workstation – with the security of the Windows® CE operating system, providing you with a full-featured, low-cost POS solution.
- NCR Advanced Store@NeighborhoodPOS provides the controls and security required in a busy retail environment, whether a restaurant or retail store.

Advanced technology allows customization

Advanced Store@NeighborhoodPOS is able to meet unique business needs by offering hundreds of parameterization options. This solution is scalable, adapting to different operation sizes, layouts and formats. A wide range of user and customer displays can be chosen. To reduce new investment costs, this solution allows you to select a configuration that meets current operational requirements and can be upgraded as business needs evolve. You are able to provide exceptional customer service by taking orders and ringing up sales more efficiently.

Optional back-office functionality can be provided by connecting Advanced Store@NeighborhoodPOS to an in-house PC with NCR Manager Workstation software or a third-party software solution. This provides an entry-level system at a reduced cost to you along with communications, reporting and maintenance.

Designed to increase productivity and efficiency in various environments

Advanced Store@NeighborhoodPOS has been designed for both the hospitality and the general retail environments. This solution is customized to meet business needs and boost efficiency in both markets. This solution allows complete accountability for tracking users within your operations.

Whether a quick-service or table-service restaurant, concession or contract food service, Advanced Store@NeighborhoodPOS can assist you in directing your daily operations better. Servers and cashiers have the tools to best help customers. This solution can also be combined with NCR 2757 Kitchen Display System peripherals to meet kitchen preparation needs.

NCR Advanced Store@NeighborhoodPOS

Advanced Store@NeighborhoodPOS's ability to include various peripherals is also important whether a small to medium specialty, hard or soft goods store. Again, this allows cashiers to be highly productive and enables you to manage your business efficiently.

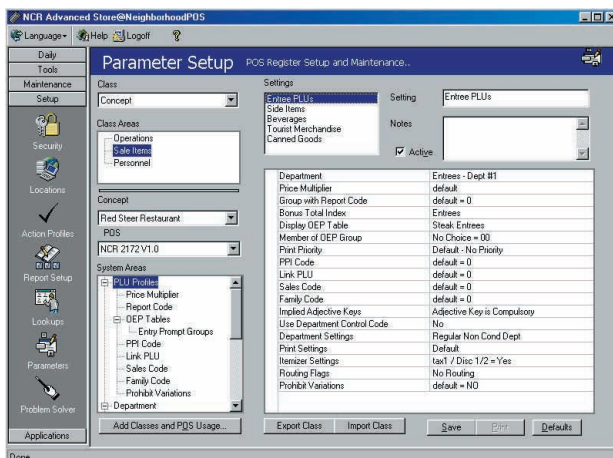

In addition, Advanced Store@NeighborhoodPOS supports multi-concept retail environments. The sale of additional merchandise like T-shirts and gift items along with food item purchases can be tracked.

Global services you can count on

Advanced Store@NeighborhoodPOS is supported by NCR's responsive global services team. NCR can be your partner for on-site support and much more. NCR offers complete solutions to meet business challenges, incorporating business/IT consulting, solutions design and integration services, project management, and installation and maintenance services. NCR retail experts will work closely with you in customizing your solution to support business objectives and deliver the value that you and your customers expect.
